GO RED FOR WOMEN PILLARS

Women are our mothers, our sisters, our daughters, our spouses and our friends. They give and give and give - often at the expense of their own health. The more a woman knows about heart disease, the better chance she has of beating it. Heart disease and stroke cause 1 in 3 deaths among women each year – more than all cancers combined. Majority of cardiac and stroke events may be prevented with education and action. We are dedicated to addressing health issues unique to women by:

- Ensure all women are aware
- Help women take charge of their health
- Close the gender gap in research and STEM careers
- Addressing inequities in access to and care and treatment
- Reducing the maternal death rate in the United States

American Heart Association.
